

COBRA
ART COMPANY

Thierry Vanhuysse

“It’s all about image”, this sentence exactly describes the content of our Cobra Art Image book. Cobra Art, established in 1983, is the largest supplier of photographic and original art in Europe.

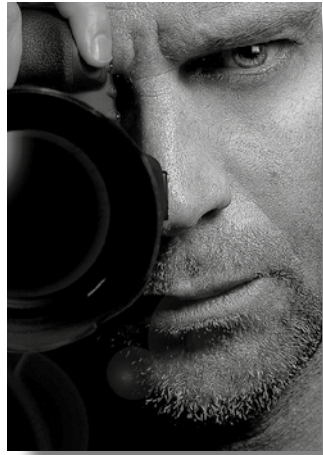

Cobra Art is a real family business based in the Netherlands. With 100% passion and love for our field, we have been able to create a wide range of photographic art and hand painted originals over the past 30 years.

Together with our artists and photographers, our goal is to create a varied collection of art, suitable for each interior and budget. We do not only distinguish ourselves by our collections, designs and unique presentation, but especially by inventing tailor-made art.

Mike and Jeannette van Rijswijk

COBRA ARTIST & PHOTOGRAPHERS

Marnix de Paepe, born in Ghent (Belgium), did some modelling at young age. More fascinated by what happened behind the camera, he became by passion a photographer himself. After 4 years of intense experiments with light and shadows he finished his first collection in style and decided to focus exclusively on Luxury Fine Art Photography.

Alain Delvoye, born in Belgium in 1959. He is a creative and commercial photographer, specializing in digital art and urban photography with a style consisting of colorful and energetic imagery. After eight years of art school, he opted finally for photography. He is a complete self-taught photographer.

Damiano Dargenio, born in Milan in 1982. At the end of his studies as graphic designer, he discovered in photography an interesting way to give life to his imagination. He is thrown directly in the work and through an uncommon path, learned technique and tricks of the trade, working next to photographic film practitioners.

Igor Vasiliadis, born in Athens in 1971. Due to a fascist coup that took place in Greece, he and his family moved to Russia. At the astonishing young age of 6 he started making photographs and developed his first Black and White film. In 2000 he started his professional photography career.

Jaime Ibarra, born in Spain in 1971, but spent most of his formative years in Australia. His love of photography stems from his childhood. No one else in his family were photographers; "it is just something I've enjoyed doing as farback as I can remember".

Robert Zwart, born in Amsterdam in 1963. Zwart admires the way the old Dutch masters worked with light. You can see this, reflected in his work. Most of his pictures are very implicit with the result that viewers have questions to be answered.

Max Wiedemann, born in 1975, has given "Urban Art" a whole new definition instead of spraying walls in the dark and hiding from authorities based on his Graffiti rooted influence, Maximilian is commissioned by some of the most exclusive brands and celebrities to display his art in the hottest addresses in the world.

Niko van der Klugt, born in Amsterdam in 1954. He is truly an autonomous artist. With a graphic training and a long artistic work history as an independent lighting designer for theatre and modern dance productions (both national and international), events, architecture projects and "he now is full into creating digital art in all its beautiful facets".

Karin Vermeer born and raised in the city of Tilburg, The Netherlands in 1970. In 1994 she finished the Willem de Kooning academy in the direction fashion design, illustration and painting. You could best define her as a creative myriapod that doesn't caution any material. She has much empathy and a good feel for trends and styling.

Jean Raphael, born in Nancy in 1967. Paris was his home for 20 years where he attended the Business and Art school. After graduating he moved to the south of France in 1999 to create bars and restaurants, where he also exposed his art works.

Jonas Leriche, born in 1978 the professional photographer of "Leriche Productions", is ambitious and full of ideas about a future where his pictures will make everyone want to dream about the fantasies he creates, a future where they too, can take part in those fantasies and dreams he experiences.

Elmar Dam, born in the Netherlands in 1976. He started in 2008 with photographing old, abandoned and dilapidated buildings. He found it great to walk around in a building and to capture the characteristics, "he missed a lot of creativity" and switched to using models.

John Marcus Cluderay, born in Leeds in 1974. Whether shooting a naked circus artist in a bathtub of milk in Massachusetts USA, or making art nudes in the dunes of the Dutch island Texel, it's clearly evident that capturing the human form has become an irresistible love affair.

Patrick Siemons, born in 1971. Choosing the right location, model, fashionstylist and makeup artist. Capturing the moment suprême and post processing photography. Shooting a fashion-shoot is more than you think.

Peter Odekerken is a professional photographer, who was born in 1981 in the Netherlands. His concept; bring the beauty of the outside world to the inside of interiors. To capture the most beautiful places around the world in a unique way.

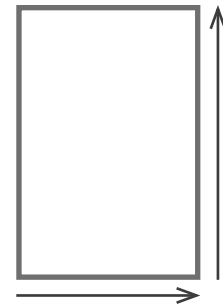

Ivor Paanakker, born in 1965, is a fashion-photographer with an exceptional style to his work. His portfolio gives a sense of something historic, but is progressive at the same time, always fashionable and feminine, but with a darker edge.

Thierry Vanhuyse, born in 1979, a 36 year old Belgian based photographer has a deep passion for creating images which implement certain emotions on people. He does this by creating several of his images using Long Exposures Techniques.
